

SOUND CALIBRATOR

PART NO. 0012-SC20

coupling cavity

1/2" microphone adapter (included)

1/4" microphone adapter (included)

- According to IEC 60942:2017
- Calibrate and test the sound pressure sensitivity of class 2 sound level meter, check and adjust the overall sensitivity of acoustic measuring device or system
- Single frequency, multiple sound pressure levels: 1000Hz, 94dB/104dB/114dB/124dB

wrench (included)

SPECIFICATION

Accuracy	IEC 60942:2017 class 2
Nominal sound pressure level	94dB,104dB,114dB,124dB
Acceptance limit for sound pressure level	.4dB
Nominal frequency	1000Hz
Acceptance limit for frequency	1.7%
Total distortion+noise	3.0%
Warm-up time	<15s
Operation environment	temperature: 14°F~122°F humidity: 25%RH~90%RH pressure: 9.43psi~15.66psi
Power supply	rechargeable lithium battery, working time≥5h
Dimension	2.28×2.28×2.28"
Weight	.37lb

STANDARD DELIVERY

Main unit (including 1/2" microphone adapter)	1 pc
1/4" microphone adapter	1 pc
Wrench	1 pc
Power adapter	1 pc
