

## DEMAGNETIZER

### PART No. 0509-DG15-U

- Copper wire coils, can eliminate residual magnetism in molds and components
- Built-in thermal protector, automatic power-off to prevent overheating and automatic reset after cooling down

#### SPECIFICATION

Working time	30 minutes continuously
Action temperature	212°F
Reset temperature	140°F~158°F
Power	200W
Power supply	110V 60Hz
Dimensions (L×W×H)	5.51×3.94×2.76"
Weight	5.29lb
