

## GLASS THICKNESS METER PART NO. 5807-GT20

- To measure the thickness of single layer glasses, multi-layer glasses, two glasses with one cavity, three glasses with two cavities, laminated insulating glasses, etc.
- Laser reflection principle measure the thickness of glass and internal air layer
- Fast measurement speed, compact design, simple operation

### SPECIFICATION

|                   |  |
|-------------------|--|
| Measuring range   | glass thickness (0~2.76"), air layer (0~1.34") |
| Accuracy          | ±.020"   |
| Least count       | .039"  |
| Test slot size    | .236"×3.7"                                     |
| Power supply      | 3V, CR2032 button battery                      |
| Dimension (L×W×H) | 6.10"×1.97"×.787"                              |
| Net weight        | 0.55lb   |

### STANDARD DELIVERY

|                       |      |
|-----------------------|------|
| Main unit             | 1 pc |
| CR2032 button battery | 1 pc |
