

# INERTIAL SURVEY RULER

## PART No. 9560-A10

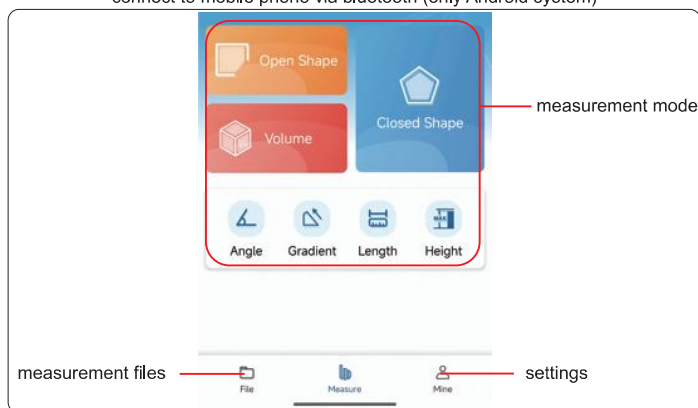

- Used for interior decoration, garden landscape survey, project acceptance, real estate assessment, etc.
- Compact and portable design
- Connect to the APP via Bluetooth for real-time mapping.
- Measurement results can be exported in formats such as CAD, CSV, PNG and PDF
- High anti-interference capability, unaffected by weather and electromagnetic interference

**IP65**  
WATERPROOF

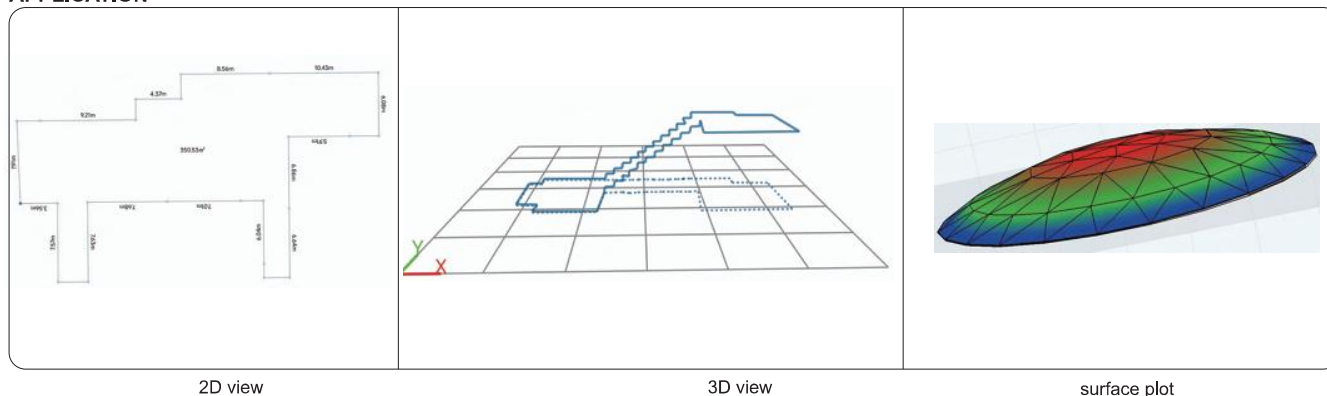

**BUILT-IN**  
BLUETOOTH

connect to mobile phone via bluetooth (only Android system)

measuring rod (included)

### APPLICATION

### SPECIFICATION

|                      |                                                                           |
|----------------------|---------------------------------------------------------------------------|
| Measuring range      | acceleration: $\pm 4g$ , angular velocity: $\pm 1000^\circ/s$             |
| Accuracy             | single linear measurement error rate: 0.5%                                |
| Measurement unit     | m, cm, mm, inch, ft, yd                                                   |
| Measurement function | length, height, angle, slope, perimeter, area, volume, etc.               |
| Data transmission    | bluetooth                                                                 |
| Working temperature  | $14^\circ F \sim 122^\circ F$                                             |
| Storage temperature  | $-4^\circ F \sim 158^\circ F$                                             |
| Power supply         | built-in rechargeable lithium battery, lasts about 7 hours on full charge |
| Dimension (L×W×H)    | 2.43×2.43×0.78"                                                           |
| Net weight           | 0.11lb                                                                    |

### STANDARD DELIVERY

|               |      |
|---------------|------|
| Main unit     | 1 pc |
| Measuring rod | 1 pc |
