

HANDHELD TWO-WAY LASER DISTANCE METER PART NO. 9566-B120

BUILT-IN
BLUETOOTH

- Built-in bluetooth, transmission distance is 32ft (no obstacles, no electromagnetic interference)
- Built-in angle sensor
- One-way or two-way ranging
- Display with backlight
- Distance, area, volume and height measurement
- Continuous measuring mode to track maximum and minimum value
- Unit: ft, in, ft+in, m
- Memory of 20 measurement values
- Automatic power off: laser 30s, main unit 180s

bluetooth connect to phone (APP)

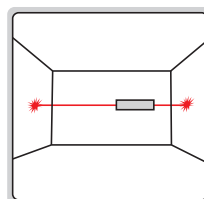

SPECIFICATION

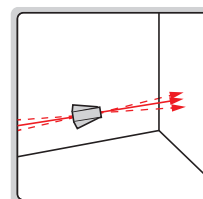

Measuring range	1~393ft (two-way)
	.82~196ft (one-way)
Accuracy	$\pm (.12+D/1666)"$, D: measured distance, unit: ft
Resolution	.001ft, 1/16", 0.001m (adjustable)
Laser type	630~670nm, class II, <1mW
Power supply	built-in 1000mAh rechargeable Li-ion battery
Operation temperature	32~104°F
Dimension (L×W×H)	6.30×1.65×.83"
Weight	.33lb

OPTIONAL ACCESSORY

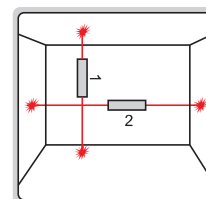

Tripod	0701-TR175
--------	------------

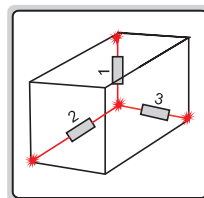

two-way ranging positioning

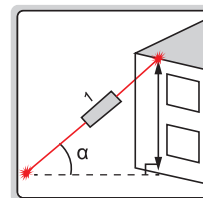

continuous measurement

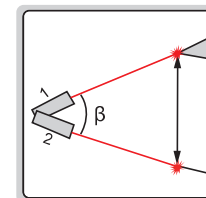

area measurement

volume measurement

auto level measurement

auto height measurement
