

FLUORESCENT PENETRANT FLUIDS

- Conformity to standards ASTM E1417
- High sensitivity, washable, high brightness, high contrast defect indication
- High water tolerance, high thermal stability, high UV stability
- High flash point, low toxicity, low volatility, low odor
- Low biological and environmental load

IPT-ZP1300

Part No.	Description	Sensitivity	Package/barrel
IPT-ZP1300	1. fast drying, no residue, not easy to cause over-cleanin 2. suitable for aerospace parts, turbine blades, welded parts and ceramics, glass, plastic and other surface defects inspection 3. can be used in conjunction with imaging agents	level 3	4.756gal
IPT-ZP1200		level 2	4.756gal
