

PORTABLE REFRACTOMETER

SUITABLE FOR WATER
BASED COOLANT

- Quickly measure the concentration of coolant, sugar solution, juice and drinks
- Refer to the refraction factor of coolant, for example:
the refraction factor of grinding emulsion is 2.1,
the reading value is 6%, so the actual concentration is $(2.1 \times 6\%) = 12.6\%$

SPECIFICATION

Part No.	ISQ-RM10	ISQ-RM30	ISQ-RM80
Measuring range	0~10%	0~32%	0~80%
Accuracy (20°C)	±0.1%	±0.2%	±0.5%
Resolution	0.1%	0.2%	0.5%
Dimension	1.06×1.57×7.24"	1.06×1.57×6.3"	1.06×1.57×5.39"
Weight	.51lb	.46lb	.41lb
