

RECHARGEABLE UV/WHITE LIGHT FLAW DETECTION LIGHT PART NO. MPI-HW369

- UV-B content is 0
- With UV and white light dual function, one hand switching
- Without preheating, instant start, instant on/off, no need to wait
- Supplied with glass filter
- External surface temperature increase <8K (46.4°F) for continuous working

goggles (included)

SPECIFICATION

UV (Light) Lux	>6000 μ W/cm ²
White light brightness	>1000LUX
Lamp bead power	UV LED-9VA, white light-3VA
Covering area	11.81"DIA (at 15.00" distance)
FLUX error	\pm 10% (at 32°F~104°F)
White light content	\leq 20LUX
Lighting characteristics	centerlighting
Wavelength	365nm \pm 3nm (UVA), at temperature 77°F
Power supply	10.8V rechargeable lithium battery
Battery capacity	3200mAh
Charging time	3h~4h
Battery life	UV LED 5h~6h, white light 7h
Dimension	6.89 \times 2.95 \times 6.69"
Weight	1.65lb

STANDARD DELIVERY

Main unit	1pc
Battery	2pcs
Charger	1pc
Goggles	1pc
