

STANDARD TEST BLOCKS FOR ULTRASONIC FLAW DETECTION

- According to GB/T1134 standard
- Used for calibrating ultrasonic instrument, such as horizontal linearity, vertical linearity, sensitivity, resolution, probe incidence angle, refraction angle, etc.

SPECIFICATION

Part No.	Material	Casing dimension (L×W×T)
UFD-CSK2	S355J0	11.81"×3.94"×.98"
